The EDC was established to attract new business, support expansion and retention of existing businesses, and advance community and economic development in the County. The goal of the EDC is to develop high-wage, high-value jobs with specific focus on manufacturing, technology, aerospace, and international trade. The EDC targets and competes for industrial sector relocations and expansions throughout North America, driving jobs, capital investment and economic impact that do the most to improve the quality of life in our community.

EDC member events are held quarterly. At our Annual Meeting the EDC presents area experts to discuss the current economic, educational and business climate in Horry County.
